

VIETNAMESE AFFAIRS STAFF  
OFFICE OF THE DIRECTOR OF CENTRAL INTELLIGENCE

DATE: 2 Aug 72

TO: The Director

FROM: GACarver, Jr.

SUBJECT:

REMARKS:

Attached is a short memo prepared by my colleagues summarizing the observed anomalies in North Vietnamese air defense hardware which suggest the possibility of their having some new kind of missile. As you will see, the picture is far from clear. In conjunction with OCI, OSR, Task Force [ ] and all other brethren concerned we will try to scrutinize all available information and figure out as soon as the evidence enables us to do so just what new toy the North Vietnamese now have.

George A. Carver, Jr.  
Special Assistant for Vietnamese Affairs

Attachment

Memo - "Probable Improvements to the  
North Vietnamese Air Defense Posture"
